WORK EXPERIENCE

Inter-American Development Bank

Research Fellow at the Research Department

Washington, D.C. United States

June 2022 - Present

- Assist researcher in preparing research papers, reports, and presentations.
- Identify, compile, and organize databases, and perform econometric and statistical analyses.
- Prepare literature reviews and participate in academic discussions on research findings.
- Provide support in project management.

Pontificia Universidad Javeriana - Quanta Cuidado y Género Remote Bogotá, Colombia

Quantitative Research Assistant

May 2021 – May 2022

- Analyzed and conducted industry research focused on examining the care sector and gender disparities in the labor market.
- Performed data input, organization, and cleaning/reconciliation on STATA across 4 household survey databases and the Colombian Census.
- Assisted in preparing a policy brief on the care sector in Colombia, by creating a literature review and descriptive statistics.
- Supported in organizing and implementing training workshops for public entities and social organizations.

Consultant

Research Assistant

Remote Bogotá, Colombia

December 2021 - May 2022

- Research assistance in the consultancy with Paula Herrera Idáraga for UN Women Colombia. Process data, estimate statistics, and generate an empowerment index for immigrant women in Colombia using Principal Component Analysis.

Consultant

Research Assistant

Remote Bogotá, Colombia

February 2021 - May 2021

- Research assistance in the consultancy with Ana Cristina Gonzalez Velez for UNFPA (United Nations Population Fund). Data management and creation of statistic reports about the impact of COVID-19 on maternal mortality, maternal mobility, gender-based violence, women's sexual rights, and fecundity.

Freelance

Research Assistant

Remote Bogotá, Colombia

October 2020 - January 2021

- Processed and cleaned data on COVID-19 cases and mobility rates, and created descriptive statics for the paper by Castells-Quintana, David and Herrera-Idáraga, Paula and Quintero, Luis and Sinisterra, Guillermo, [Unequal Response to Mobility Restrictions: Evidence from COVID-19 Lockdown in the City of Bogotá \(May 1, 2021\)](#). UNDP COVID-19 Policy Documents Series.

Pontificia Universidad Javeriana - Economics Department

Junior Researcher

Bogotá, Colombia

February 2020 - September 2020

- Built a database with information on individuals' skills with data from the National Service Labor Bureau of Colombia.
- Estimated the skill mismatch between labor demand and supply using text analysis in R.
- Estimated the probability of automation of occupation using machine learning (Random Forest) in Python.
- Organized a workshop for the technical team in the National Service Labor Bureau to learn how to apply text analysis and help connect the labor supply and demand in Colombia to reduce the skill mismatch.

Banco de la República de Colombia - Gerencia Técnica
Intern

Bogotá, Colombia
January 2019 - December 2019

- Research assistance for Luis Eduardo Arango Thomas. Using a database with more than 7 million records of purchases with credit cards we analyzed consumer behavior in Colombia and estimated credit constraints in Colombia among low- and middle-income individuals
- Built a database with information on the Manufacturing sector in Colombia from 1950 to 2014. Created statistics reports about the changes in employment by industry and estimated the production function to identify the changes in the labor share through time.
- Elaborated technical inputs to relevant policymaking decisions such as estimating the effect of the minimum wage on employment in Colombia and its monetary policy impact.
